ProPlayX (PPX)

FRANCHISE OWNED, COMPANY OPERATED MODEL

BUSINESS PLAN

The FOCO Advantage

Welcome to the future of sports infrastructure management. ProPlayX (PPX) introduces a seamless, high-yield investment opportunity in the rapidly expanding pickleball market through our FOCO (Franchise Owned, Company Operated) model. This structure allows investors to deploy capital into premium sporting assets while PPX takes full responsibility for day-to-day operations, technology integration, and customer acquisition.

Pickleball is experiencing unprecedented global growth. By combining investor capital with PPX's deep domain expertise, proprietary booking technology, and established event networks, we ensure that every facility maximizes its utilization rate and revenue potential from day one. You own the asset; we drive the performance.

Zero Operational Headache

The franchise partner purely plays the role of an investor. PPX handles 100% of the daily grind—from hiring staff to sweeping the courts. You receive regular performance reports and your share of the revenue without fielding customer calls.

Technology-Driven Yield

Every court is integrated into the proprietary PPX Booking App. This maximizes occupancy through algorithmic pricing, automated membership renewals, and real-time open-play matchmaking.

Professional Infrastructure

PPX oversees the entire design and build phase. We utilize standardized, high-quality materials—from 5-layer synthetics to heavy-duty nets—ensuring international standard playing conditions that command premium hourly rates.

Ecosystem Integration

Your court isn't an island. It instantly becomes part of the wider PPX network, benefiting from central marketing campaigns, regional tournaments, and brand collaborations that drive footfall.

What ProPlayX Delivers

Under the FOCO agreement, PPX acts as your comprehensive management partner. Our standard operating procedures ensure that the facility is built to spec, marketed effectively, and run with institutional efficiency. Below is the scope of PPX's responsibilities:

1. Design & Construction

PPX manages the end-to-end build out of the facility. From civil works and asphalt base laying to installing the specialized 5-layer synthetic court surface, customized fencing nets, and professional sports lighting. We ensure the court meets competitive standards.

2. PPX Booking Platform

Complete integration with the PPX App. Customers can seamlessly book slots, pay online, and schedule matches. The platform provides automated inventory management, ensuring no double-bookings and maximizing peak-hour yield.

3. End-to-End Operations

Total facility management including manpower hiring and training (coaches, court managers, housekeeping). We handle online platform registration, manage daily walk-ins, structure monthly coaching plans, curate memberships, and organize open-play sessions.

4. Financial & Accounting

Transparent and robust financial management. PPX handles daily reconciliation, expense tracking, payroll processing for facility staff, and provides the franchise partner with detailed monthly P&L statements and operational dashboards.

5. Marketing & Promotion

Centralized marketing support from the PPX head office. We execute targeted digital marketing campaigns, social media management, local SEO, and offline community outreach to guarantee high court utilization rates from month one.

6. Event Collaborations

We leverage our industry network to bring business to your court. PPX collaborates with corporate event organizers, sports leagues, and local brands to host weekend tournaments, corporate offsites, and pickleball clinics to boost ancillary revenue.

Commercial Models

ProPlayX offers two flexible commercial structures designed to align with the franchise owner's risk appetite and investment strategy. Both models ensure PPX is incentivized to maximize facility revenue.

Option A: Profit Share

75% / 25%

- **75%** of Net Profit goes to the Franchise Owner.
- **25%** of Net Profit goes to ProPlayX.
- Ideal for investors looking for aligned incentives where PPX shares the operational risk and focuses heavily on expense optimization.

Option B: Top-Line Fee

10% Revenue

- **10%** of Gross Revenue is paid as a Management Fee to PPX.
- Franchise retains the remaining balance after deducting site operational expenses.
- Ideal for investors seeking a predictable fee structure.

Capital Expenditure: Single Court Costing

Standard unit economics based on an estimated ~2,000 sq. ft. footprint (including play area and safety margins). *Note: Final quantities will be billed on actuals based on site dimensions.*

ITEM DESCRIPTION	RATE SPECIFICATION	ESTIMATED COST (INR)
Asphalt Base Preparation	Rs 120 per sq. ft.	2,40,000
5-Layer Synthetic Surface	Rs 55 per sq. ft.	1,10,000
Perimeter Safety Nets	Rs 14 per sq. ft. (up to 20ft height)	55,000*
Center Net System	Heavy Duty Professional Standard	19,000
Sports Lighting System	Luminaires and Poles	45,000
Facility Branding	PPX & Franchise Signage	20,000
Estimated Total Setup Cost (per court)	**Excludes civil retaining walls, GST & Land cost**	**Rs 4,89,000**

*Perimeter net cost varies based on actual linear running feet of the enclosure.

Revenue Projection (1 Court Model)

The following projections demonstrate the potential earning capacity of a single PPX managed pickleball court operating at a conservative maturity level. Revenue is diversified across pay-and-play bookings, monthly memberships, and coaching academies to ensure stable cash flow.

TARGET MONTHLY GROSS: ₹1,50,000 - ₹2,00,000+

Estimated Monthly Revenue Breakdown

REVENUE STREAM	ASSUMPTION MATRIX	PROJECTED REVENUE (INR)
Pay & Play (Peak Hours)	4 hours/day @ Rs 800/hr × 30 days	96,000
Pay & Play (Off-Peak)	2 hours/day @ Rs 500/hr × 30 days	30,000
Coaching & Academies	2 batches (10 kids each) @ Rs 2500/mo	50,000
Monthly Memberships	10 adults @ Rs 3000/mo	30,000
Events / Tournaments	1 weekend event per month (average)	15,000
Gross Estimated Revenue / Month	**Stabilized run-rate (Month 4 onwards)**	**Rs 2,21,000**

EST. OPEX / MONTH

~₹60k

(Manpower, Power, App, Maintenance)

NET OPERATING PROFIT

~₹1.6L

Before Franchise/PPX Split

ESTIMATED ROI

8-12

Months Payback Period

Disclaimer: The projections above are forward-looking statements based on market averages and 6-7 hours of daily court utilization. Actual performance will depend on location tier, local market adoption, and ground realities. Land lease costs are excluded from the Opex assumption.
